

Windows Estate Small Batch Petit Verdot 2012

We are privileged to have been allowed this small parcel on our shipment as it hasn't been released for sale in Australia yet!

Chris tells us that more bottle age is required before this wine is ready for drinking.

Full tasting notes will be posted here when the wine goes on sale, but why not take advantage of this cheeky opportunity to get your hands on some of this special bottling – just don't drink it until we tell you!
